ARES

Designer - Jens Juul Eilersen
Design Year: 2025

The Ares sofa perfectly distils the design language of Eilersen: timeless form meeting undeniable function.

With a modular design consisting of 11 elements, Ares can be configured to suit the dimensions, style, and functionality of your space.

The seating modules are sized to fit together in a variety of ways, and can be connected on all four sides, making it easy to arrange the seating as you like – and then rearrange it, if you choose. Create a sofa along the full length of a wall, go around a corner by making it sectional, or even separate the modules for individual seating. From a cosy and comfortable living room to an inviting hotel lobby, the Ares sofa offers a grounded and elegant silhouette that invites those around to relax.

The standard version comes with a fixed cover, but it is possible to order a removable one that can be dry cleaned and changed as desired. Underneath the cover there is a calico cover made from 100% cotton to protect the upholstery.

FEATURES:

- The sofa comes in 11 different modules that can be configured as desired, including in 360° positioning
- Fixed cover is standard but removable cover is available
- Seat height can be increased by either 2 (3/4”) or 4cm (1 1/2”)with our leg heightening kit. Standard leg is 6x6x6cm (2 1/3”)
- New cover is available for the model

WHAT TO CONSIDER:

- Due to the down cushioning, this product does best with regular fluffing

FRAME: Frame in solid Scandinavian pine with a seat suspension of highly elastic Nozag springs made of varnished European carbon steel, upholstered with polyurethane foam.

CUSHIONS: The seat cushion is consisting of a highly elastic polyurethane foam core, and is together with the whole frame, with a wrap of 100% high-quality down and small duck feathers, sewn into a ribbed, down-proof cambric cushion (casing) in 100% cotton.

All down and duck feathers are from dead animals used for food production.

The down can emit a faint odor at high humidity and should be air-dried regularly. To maintain the shape and appearance of down cushion and pillows, regular fluffing-up and airing is recommended.

COVER: Ares is available upholstered with a fabric or leather from the entire Eilersen collection or upholstered with a COM fabric or leather (customers own material).

With leather upholstery the standard delivery is with a fixed cover on the frame with an undercover in stout made of 100% cotton.

With fabric upholstery the standard delivery is with a fixed-frame cover, alternatively with a removable cover on the frame, both with an undercover in stout made of 100% cotton.

All cushion covers are equipped with a high-quality zipper.
