With its soft form and sturdy frame, the Aton sofa brings a contemporary look and comfort to any space.

The Aton’s thick frame has a low backrest that is bolstered by a long, firm single outer back cushion made with a 100% down padding.

The double back, down cushions - both long in the back and square in the front - offer unparalleled comfort while the all-over down padding creates an organic movement to the body of the sofa. All seat cushions are the same width, either 70 or 80cm wide, creating a cohesive yet soft look.

The standard version comes with a fixed cover, but it is possible to order a removable one that can be dry cleaned and changed as desired. Underneath the cover there is a calico cover made from 100% cotton to protect the upholstery.

Aton is offered as a fixed two- and three-seater sofa in five sizes, sections, and footstools in 28 different sizes and shapes, all with either 70cm (27 ½”) or 80cm (31 ½”) wide seat cushions. This modularity makes it easy to adjust to the size and needs of your space.

Seat height is standard 43cm (16 15/16”) but can be increased by either 2cm (3/4”) or 4cm (1 1/2”).

FEATURES:

- The sofa comes standard in five sizes and the sofa modules in 25 sizes making the length totally customisable, while the depth remains consistent .
- Aton can be customised for individual wishes.
- Customise with fabric choices in 200+ options, including using your own fabric.
- Fixed cover is standard but removable cover is available.
- Leg height can be increased by either 2cm (3/4”) or 4cm (1 1/2”)with our leg heightening kit. Standard leg is 6x6x6cm (2 1/3”).
- New cover is available for the model.

WHAT TO CONSIDER:

- Due to the down cushioning, this product does best with regular fluffing
- The back cushion is not included and must be ordered separately

FRAME: Frame in solid Scandinavian pine doweled together in triangular frames, assembled and braced with low emission Masonite, using a water-based glue. Seat suspension of highly elastic Nozag springs of varnished European carbon steel mounted in specially developed coated silent spring holders. The frame is upholstered with several types of high-quality polyurethane and hard foam for comfort and long durability.

CUSHIONS: The seat cushion is a down-top cushion consisting of a highly elastic polyurethane foam core with a wrap of 100% high-quality down and small duck feathers, sewn into a ribbed, down-proof cambric cushion (casing) in 100% cotton.

The cushion filling in other cushions is 100% high-quality down and small duck feathers, sewn into a ribbed down-proof cambric (casing) in 100% cotton.

All down and duck feathers is a biproducts from dead animals used in the food industry.

The down can emit a faint odor at high humidity and should be air-dried regularly. To maintain the shape and appearance of down cushion and pillows, regular fluffing-up and airing is recommended.
